Superintending Engineer (Ele)(Tech),  
MESCOM, Mangaluru

I/12003/2022

**General Terms and Conditions / Scope of Work**

MESCOM requires services of Energy Manager to conduct Periodic Energy Accounting as per Gazette Notification dated 06.10.2021. **However, this does not constitute any form of employment/obligation on MESCOM to give employment. It is merely service of Energy Manager which shall be provided**

The detailed scope of work and General Terms and Conditions are as below;

✓ **General Terms and Conditions:**

1. Energy Manager having professional experience of not less than five years and shall furnish relevant document for having experience of five years. Shall furnish the certificate issued by BEE for being an Energy Manager which shall be valid throughout the contract.
2. Contract period: 1 year from the date of award which may be extended at the discretion of MESCOM on need basis and on mutual consent.
3. Energy Manager will be the part of the Central Energy Accounting and Audit Cell of MESCOM as per Gazette Notification dated 06.10.2021.
4. **Manner of submission of reports:**
  - a) Periodic energy accounting reports: 2<sup>nd</sup> quarter, 3<sup>rd</sup> quarter and 4<sup>th</sup> quarter of FY-22 and 1st quarter and 2nd quarter of FY-23. The said reports (signed copy) shall be submitted within the stipulated timeframe given by BEE with due verification as per the BEE guidelines.
  - b) Annual Energy Audit Report: Shall assist Accredited Energy Auditor in Annual Energy Audit for FY-21 and FY-22.
5. Cost of services: Proposal to be submitted in Indian Rupees inclusive of all taxes duties and any other charges (Breakup of cost i.e. quoted amount, taxes etc., to be mentioned)
6. Payment Clause: MESCOM will arrange payment on prorata basis against submission of certified periodic energy accounting report. However, if any clarification/modification intimated by BEE shall be taken into consideration and shall submit the revised reports without any extra cost to MESCOM. For arranging payment, the following document will have to be furnished by the bidder:
  - i. Tax Invoice comprising of "MSME UNIT" tag line if applicable, GSTIN of the Bidder and MESCOM (29AADCM7029H1ZA) duly indicating the IGST, SGST & CGST separately in duplicate, stamped and pre-receipted.
  - ii. The arrangement for payment of "Tax Amount" will be made only after the Invoice details of the respective month are uploaded in GSTR-1 by the Bidder.
7. Penalty: In case the work is not completed within the period stipulated in the award, BIDDER shall be liable to pay at the discretion of the MESCOM as the case may be, penalty to the MESCOM at ½ % per week, subject to a maximum of 10% reckoned on the contract value of such complete portion or section of the work which could not be brought into commission due to any part thereof not having been completed in time, subject to force majeure condition. Otherwise it should be as specifically noted in the time schedule.

✓ **Scope of Works:**

- **Intervals of time for conduct of Periodic Energy Accounting:** ensure that all feeder wise, circle wise and division wise periodic energy accounting shall be

I/12003/2022

conducted by the energy manager of the electricity distribution MESCOM for each quarter of the financial year.

- **Manner of annual energy audit and periodic energy accounting:**

Every annual energy audit and periodic energy accounting under the regulations of Gazette Notification shall be conducted in the following manner, namely;

- a) Verification of existing pattern of energy distribution across periphery of electricity distribution MESCOM; and
- b) Verification of accounted energy flow submitted by electricity distribution MESCOM at all applicable voltage levels of the distribution network
  - i. Energy flow between transmission and 66kV/33kV/11kV incoming distribution feeders;
  - ii. Energy flow between 66kV/33kV outgoing and 11kV/6.6kV incoming feeders;
  - iii. Energy flow between 11kV/6.6kV feeders and distribution transformers, or high voltage distribution system;
  - iv. Energy flow between distribution transformers, or high voltage distribution system to end-consumer, including ring main system;
  - v. Energy flow between Feeder to end-consumer and
  - vi. Energy flow between 66/33/11kV directly to consumer.

- **Prioritization and preparation of action plan: -**

1) The annual energy audit report submitted by accredited energy auditor in consultation with the nodal officer and periodic energy accounting report submitted by energy manager of the electricity distribution MESCOM shall include following activities, namely:-

- I. Data collection and verification of energy distribution-
  - a) Monthly energy consumption data of consumers and system metering from electricity distribution MESCOM at following voltage levels-
    - i. 33/66/110kV levels, including 33/66/110kV feeders and sub-stations;
    - ii. 11kV levels, including 11kV feeders and distribution sub-station;
    - iii. 440 V level, including Distribution Transformers and low tension consumers;
  - b) Input energy details, for all metered input points;
  - c) Boundary meter details;
  - d) Source of energy supply (e.g. electricity from grid or self-generation), including generation from renewables.
  - e) Review of the current consumption practices in order to identify the energy loss in the system;
- II. Data verification, validation and correction-
  - a) A monitoring and verification protocol to quantify on annual basis the impact of each measure with respect to energy conservation and cost reduction for reporting to Bureau and the concerned State designated agency;
  - b) Verification and correction of input energy, taking into account the following-
    - i. Recorded system meter reading by metering agency;
    - ii. All the input points of transmission system;
    - iii. Details provided by the transmission unit;

I/12003/2022

- iv. Relevant records at each electricity test division for each month;
  - v. Recorded meter reading at all export points (where energy sent outside the State is from the distribution system); and
  - vi. System loading and corresponding infrastructure
- c) Energy supplied to Open Access Consumers which is directly purchased by Open Access Consumers from any bidder other than electricity distribution MESCOM; and
- d) Verify and validate the system metering data provided by metering agency through random field visit (particularly for data irregularity)

Further, Energy Manager shall abide to requirement as per Gazette of Notification dated 06.10.2021 of BEE or any further amendments, directions and shall coordinate with BEE, KREDL and PCKL in submitting the Energy Accounting reports. Also shall assist Accredited Energy Auditor in submission of Annual Energy Audit report.
